---

Date first trailed: March 1998    Date WTCH attained: 1998

Highest score: 124    on what class of stock? Cattle

This dogs favorite kind of stock: Cattle

Special Accomplishments / story: As a worker Osceola is not a dog for the meek or novice person as he can be very pushy. He works wide but also likes to get in close sometimes. He heads and heels but prefers to head and is so fast that Roger has to think ahead and have his timing just right or Osceola will get ahead of him and the stock. Osceola was bred to work cattle and cattle are his specialty; in the real world when he's working rank cattle, he makes the contrary ones pay dearly for being ornery. He is especially good at rating the different kinds of stock and instinctively knows what the handler wants done. Although he is plenty tough, he has never really harmed any livestock with his biting. He knows exactly how to nip, whether on the nose or heel, to get the point across without causing damage.
